

Internship Program Information and Questionnaire

Name: _____

Address: _____

Phone Number: _____

Email Address: _____

Yuba Water Agency's internship program provides opportunities for current college-level students looking for experience in various careers.

Interns get to see and experience the fifth tallest dam in the U.S. - New Bullards Bar, the largest single-cast Pelton Wheels ever manufactured, and all of the systems that keep the agency operating at the highest level possible. Interns are assigned routine projects with direct oversight, and are able to work a maximum of 920 hours per fiscal year.

Minimum Qualifications

- Current college student
- Combined GPA of 2.5 or higher

Requirements

- Pass background check, physical and drug screen
- Provide references upon request
- Possess and maintain a valid driver's license

Compensation

- Pay rate is \$20.00 – \$23.00 per hour
- Interns are supplied arc flash rated clothing, if necessary

You may have an opportunity to interact with and learn from multiple areas within Yuba Water Agency. Please select the following department(s) you are interested in. For a more detailed description of each internship, please see the individual job postings located [here](#).

- Communications
- Hydrography/Hydrology
- Power Settlements/Markets
- Community Engagement/Human Resources
- Engineering
- Information Technology

Please select one option:

Option #1 I am available Full-Time and would like to be an intern for only one department

Option #2 I am available Full-Time and would like to be an intern for more than one department

Option #3 I am available Part-Time and would like to be an intern for only one department

Option #4 I am available Part-Time and would like to be an intern for more than one department
